AUTOPSY REPORT

Case 73 - 3347

August 11, 1973

PATHOLOGICAL DIAGNOSIS ON THE BODY

OF

David William Hilligiest
402 West 27th Street
Houston, Texas

Asphyxia due to strangulation.

OPINION

It is our opinion that the decedent, David William Hilligiest, came to his death as a result of asphyxia due to strangulation - Homicide.

It is our further opinion that the time of death was on or about May 29, 1971.

COMMENT: Initially, the clothing which Mr. Everett Waldrop positively identified as belonging to his sons, Donald Wayne and Jerry Lynn, were submitted with the skeletal remains of Unknowns #9 and #10. The amalgam filling in tooth number 30 matched the description furnished by him for Donald and since the other skeletal criteria also were consistent with the size and age of his two sons, the skeletal remains of Unknowns #9 and #10 were released to him and interred in Georgia.

Subsequently, during the continuing process of identification of other victims, the antemortem X-rays submitted

by Dr. Robert H. Shame were compared to the postmortem radiographs of the jaws of Unknowns #9 and #13. It was then determined that the skeletal remains of Unknown #9 were actually those of David William Hilligiest and Unknown #10 were those of Gregory Malley Winkle, Unknown #13 were those of Donald Wayne Waldrop, and Unknown #14 were those of Jerry Lynn Waldrop.

On September 7, 1973, the appropriate parties were informed of the misidentification. The necessary steps were initiated to exchange the respective skeletal remains. This was accomplished during the week of September 17, 1973.

Joseph A. Jachimczyk, M.D., J.D.
Chief Medical Examiner

(See Cases 73-3332, 73-3333, 73-3334, 73-3335, 73-3336, 73-3337, 73-3338, 73-3339, 73-3348, 73-3349, 73-3350, 73-3353, 73-3354, 73-3355, 73-3356 and 73-3357)

POSTMORTEM EXAMINATION ON THE BODY OF

David William Hilligiest
402 West 27th Street
Houston, Texas

HISTORY: The skeletal remains were discovered among seventeen bodies at 4500 Silverbell Street, Stall #11, Houston, Texas, between 6:00 p.m. on August 8, 1973, and 8:00 p.m. on August 9, 1973. These skeletal remains were found together with Unknown #10, in the center of Stall #11, at approximately 1:00 p.m. on August 9, 1973.

AUTOPSY: The autopsy was performed by Chief Medical Examiner Joseph A. Jachimczyk, M.D., assisted by Dr. Paul G. Stimson, beginning at 1:00 p.m. on August 11, 1973, in the Harris County Morgue.

EXTERNAL APPEARANCE: These remains consisted of a skull with dark brown hair with a maxilla attached and a separate mandible and a number of bones and soft tissues. Also present were a pair of white with black striped sneakers in the left sneaker of which there was the word "SANFORIZED". Beneath the word "SANFORIZED" appeared to be the word "PENNEY'S". The sneaker sole measured 11 inches in length. There was an attached portion of pelvis and two femurs, two ulnas, several vertebrae, two scapulae and a number of ribs. There was a blue stretch cotton sock with terrycloth-like finish. The right femur measured 16-1/2 inches in length. The left femur measured 16 inches in length. A portion of cord was wound around the neck area. X-rays did not disclose any bullets in the skeletal remains.

DENTAL EXAMINATION

Utilizing the Universal System, there was an occlusal amalgam in the upper left first molar, tooth 14. There was an anterior open bite, tooth 8 overlapped tooth 9 on the mesial. All third molars were in their crypts. Tooth 24 was crowded to the lingual, tooth 27 was rotated to the mesial-labial, tooth 25 was lapped over tooth 26.

At the request and in the presence of Chief Medical Examiner Joseph A. Jachimczyk, M.D., on September 9, 1973, I compared the postmortem dental X-rays with the antemortem dental X-rays submitted by Dr. Robert H. Shame and demonstrated this to Mr. and Mrs. Hilligiest. I overlay the antemortem and postmortem jaw radiographs. The outline of the occlusal filling matched exactly on the antemortem and postmortem radiographs. The shape of the teeth, the root structure, the pulpal configurations also matched exactly. This was equivalent to the antemortem and postmortem negatives superimposed. They matched perfectly. Mr. and Mrs. Hilligiest accepted the fact that the remains were those of their son, David.
